

How does Ride Share work?

The way it works is... two weeks before the courses start, a RideShare option will open on the Member's account page (when you log in to the U3A web site with your membership name and number – as on your lanyard).

You fill in the part about which course you want to attend and where you are living (eg Vauxhall) and the request will be posted onto the web site so that people on the course can respond.

Course Convenors will also look at those requests and do their best to match people.

Most people will have their rides arranged after two weeks after the courses begin and so at the end of Week 2 of a Series, the RideShare option closes down for that Series.

I hope this helps – if all else fails, do contact the Course Convenor by e-mail (on the course brochure) and ask for more help.
