

## THE UNIVERSITY OF THE THIRD AGE

Beginning in France in the mid seventies the U3A movement has now spread to most countries and has many hundreds of thousands of members.

U3A is a response to the idea that human life is divided into three periods: firstly, childhood and schooling; secondly, child rearing and work; and thirdly, retirement.

The third age is seen to provide the greatest opportunities for learning and understanding because it is during this period of retirement that the idea of a university as a community of those who seek greater understanding through learning can be put into practice.

### The unique characteristics of U3A

- Learning topics are selected by the members
- In depth courses are planned by members
- Opportunities for reading, research and discussion are provided
- Presenters/facilitators are usually members of the groups
- The company of others who enjoy learning is ensured
- The atmosphere for learning is informal and friendly
- There are no examinations
- There are no compulsory activities
- Courses take place during daylight hours
- Costs are minimal and within reach of everybody

The U3A Dunedin Charitable Trust has recently entered into a partnership with the University of Otago which will enhance their shared community of interest by continuing to provide a programme of non-credit educational courses while further utilising the expertise and resources of the University.

### The Programme

This is a course for amateur digital camera users. Participants will learn how to use their cameras to produce better photos, especially for home and family enjoyment. The course will cover how to take effective photos, process them and print them, email and store them. There will be practical demonstrations of the use of Photoshop and printers for home use and a local field trip to try out suggestions.

**Reg Graham is the presenter for all sessions. Reg is a Fellow of the Photographic Society of New Zealand and currently a judge in the annual selection of Honours.**
