Please keep this brochure as a reminder of venue, dates, and times

SIX JOURNEYS IN SCIENCE

In this course, six local scientists – three women and three men – have been asked to reflect freely on the wide-ranging course of their lives. They have responded enthusiastically. As the class will discover, their professional studies have taken them on fascinating journeys and opened them to experiences not at all confined by the conventional boundaries of their disciplines.

THE PROGRAMME

9 June Mataura to Cambridge and back again by chemistry

Professor Lyall Hanton, Department of Chemistry

16 June The soul of a scientist
