The Five Senses

Inspired by a U3A talk on perfume given by Brian Robinson, this course includes talks on each of the five senses (sight, hearing, touch, taste, smell) and will have two main themes. It will cover how each sense works, common problems experienced as we age, and solutions to these common problems. It will also provide examples of the use of each of the senses, focusing on heightening our awareness of its use, and enhancing our pleasure in our senses.
