Urban design ranges in scale from a large metropolitan region down to a single street or public space. A strategic approach to problem-solving, it draws together many professions and prioritises mindfulness of environmental, economic, social and cultural consequences at these various scales. During this series, participants will hear from urban practitioners, researchers and theorists with insights into how urban design might best address 21st Century challenges.

All applications must be received by **Friday 2 August, 2019**. You will receive a response to your application by **Monday 12 August, 2019**.
