Each month, every member selects an item of news that has caught their interest. It may be local, national or international and there is no shortage of topics at present.

The discussions that evolve from each presentation are stimulating, thought provoking and sometimes quite surprising.

One of us has been elected to keep us all on track and ensure everyone has a voice...we have been known to stray off the path sometimes but the group is evolving nicely in an informal and informative way.

We have some Kiwis in the group and others come from as far away as the USA, Argentina, Australia and England.

Backgrounds are equally varied with most having been professionals in the spheres of teaching, medicine, social work, aged care and business.
