The **GALLERY GROUP** members visit galleries and studios most often locally, but occasionally out of town.

Members of the group take turns in organising the visits and communicating with the group by email. These are usually to artists, weavers, potters, jewellers, photographers or local exhibitions at galleries

Transport to venues out of town is usually shared, with some trips taking up the whole day. We have been running since February 2015, with a visit every month.

The group is full at 12 members as some studios have limited space.

We have one person on the waiting list.
