The purpose of the Podcast Group

To introduce podcasts to the group.

To share a respectful and lively discussion regarding podcasts.

To share pleasant stimulating time together.

With the understanding that not all podcasts will be to the group members' tastes, but that they will be listened to with convivial respect and open mind to what is offered.

There is also the understanding that the host has taken some effort to find and present the podcast, and has vulnerability in

sharing their offering. This is a suggested structure in order to give shape to the meeting and help to keep discussion on track. But also, with the understanding that the structure will organically settle into to preferred format by the group members.

Group to be hosted by a member of the group every month, who will facilitate the meeting and encourage all those who want to participate to share their thoughts.
